Live Oak Farm

Owners

Nina Andres and Juan Berrelleza

Family

Son-Joel (6 years old)
Daughter-Julia (1½ years old)

Number of Years Farming

10

Our Farm

Using certified organic production practices, Live Oak Farm employs one permanent worker to cultivate organic fruits and vegetables as well as extra virgin olive oil on 24 acres of land.

Distribution of Product

The majority of produce from Live Oak Farm is distributed to consumers through retailers such as Davis Food Coop, Sacramento Natural Food Coop and Harvest Market (in Fort Bragg), through local farmers' markets, and CSA. Approximately 20% of produce is distributed to wholesalers such as Cooks Co. from San Francisco.

Joys of Farming

We enjoy many benefits from farming, especially being outdoors and growing our own food.

Challenges of Farming

One of our greatest challenges is working in the summer heat. It's not only a challenge for us, but for the produce. Another challenge is simply keeping it all "together".
